IMPROVING PEOPLE’S LIVES THROUGH LIFELONG LEARNING

CENTRALIA COLLEGE and the FOUNDATION 2013-2014 REPORT TO THE COMMUNITY
As I close out my career at Centralia College, I can’t help but look back over my 34 years in higher education and be amazed at what has transpired.

My first 13 years were as a young fisheries biologist, teaching fisheries technology students at Peninsula College how to prepare for a lifetime of work in the field. We had to program these things called “computers” to analyze the data we collected. I must admit, teaching students how to fish so they could be knowledgeable sport fishing samplers for the Department of Fisheries and Department of Game was an enjoyable challenge.

The next nine years were full of different challenges. I moved into administration and helped solve the problem of retraining 200 laid off paper mill workers. We built 11 new vocational programs in a matter of two years and helped get the economy growing again.

When I came to Centralia College in 2002 as president, I never dreamed we would face more significant challenges over the next 12 years. Two 500-year floods, the shutdown of the community’s largest employer and 600 people laid off and many wanting retraining, and the onset of the deepest recession since the Great Depression were some of the major hurdles we had to overcome. We did overcome them and are better for it.

During that same time period, we built the college’s first bachelor’s degree and graduated its first class. We held true to our guiding principle of taking care of our employees by not laying anyone off during the recession. And, during the deepest part of the recession, which was the most challenging time for faculty and staff members, we maintained the highest graduation rates of all the comprehensive community colleges in the state.

Centralia College is a great institution with great faculty and staff members giving their best to our students. I am proud to end my career serving the citizens of Community College District 12 and the people of Centralia College. Thank you!

This has been a year of change and I have been honored to play a small role by representing the Foundation in some of those changes. A major change has been the retirement of College President, Dr. James Walton and the introduction of our new College President, Dr. Robert Frost.

The Foundation’s past president, Brian Nupen, noted the generosity of our community has enabled the Foundation to support the college through fund raising. It has been through the generosity of the Foundation supporters that the Foundation was able to award more than $740,000 in scholarships, grants, STEM awards and financial aid to 291 students for 2014-15. From that amount, $90,000 was awarded to students seeking their bachelor’s degrees.

With all the fiscal transactions that must occur, be assured that our books are audited annually. Board members take their fiscal responsibilities seriously and it is automatic that the books are audited annually.

It is important for the Foundation to recognize faculty and staff members for their contribution in enriching the academic environment of the college. Last year, the Foundation awarded more than $13,000 to faculty and staff members for outstanding achievement. We also assisted in the installation of the Corbet/Kemp statue. The Foundation is also participating in the TransAlta Commons, which is well into the design phase. We are anticipating that by 2015, ground will be broken for the new building.
Centralia College is the ideal place to begin, continue, or "retool" your higher education. As the new president at Centralia College, I was drawn here by the outstanding reputation in teaching, leadership and innovation. This college is making history with its strong mix of associate and baccalaureate education, college prep, community engagement, and commitment to sustainable development in Washington.

At Centralia College you will find a stable, safe, and very energetic community ready to support your learning. When I first visited the college, I was impressed by the friendly atmosphere, the interest in teaming together to solve great challenges, and especially the support and commitments the communities of Lewis and southern Thurston counties have made to the college.

As the oldest continuously operating community college in Washington, we are very proud of our history. As you walk around the campus, you will note sculpture that commemorates our founders, images of famous Washingtonians, and buildings that celebrate the finest architecture of recent American history. It is easy to see why students, professors and our community take such great pride in our college!

As home of the state Center of Excellence in Clean Energy, Centralia College has supported the creation of more than 340 jobs in the energy sector since 2005. Our communities are on the move, and Centralia College is on the move too, modeling sustainable economic development, Bachelor of Applied Science degrees in management and diesel, and the development of a global-minded citizenry.

If you are thinking about your own future, we hope you will consider Centralia College your #1 choice. The practical reasons are all there: great teaching as well as supportive advising, tutoring, and other learning services. But the professional reasons are just as important: Centralia graduates have a very high immediate employment rate (consistently over 75 percent) because the college supports cutting-edge technologies, library, and IT services. Your experience here will be of high value in tomorrow's workplace.

I look forward to meeting you on campus, and learning about your educational journey!

Sincerely,

Dr. Robert A. Frost
Two Centralia College faculty members, Dr. Atara MacNamara, associate professor of psychology, and Michael Threapleton, associate professor of physics and engineering, received the prestigious Exceptional Faculty Award for 2014. The award recognizes instructors who bring an extraordinary level of commitment, excellence, and innovation to the college.

Threapleton teaches physics and engineering, two subjects that provide constant challenges and opportunities for discovery.

In fact, just when everything seems to be figured out, something new comes along to shake it up.

“(With the discovery of dark matter and dark energy) we are now looking at another explosion that tells us again how much we have to learn. We’ve been studying about five percent of what’s out there. We’ve got a whole new universe to figure out,” Threapleton said.

This quest for understanding and a passion for learning are what drive his teaching, and keep him trying new things.

“I enjoy teaching. Physics is hard and not a lot of students choose to study physics, but it is rewarding to hear from our graduates who say they leave here well prepared to succeed,” Threapleton said.

He is also high on student success. In fact, all of his transfer engineering students have gone on to complete their bachelor’s degrees.

“I’m very proud to work here. This college is at the top of the heap of the state’s college system. We have impressive facilities and I work with very amazing colleagues. I believe we do a lot of great work here,” Threapleton said.

Understanding human behavior can be considered essential for success in so many areas of life and Atara MacNamara, Centralia College associate professor of psychology, has a reputation for opening the doors to an understanding of behavior.

“There is so much to learn about how the brain functions,” MacNamara said. “We are just beginning to understand brain activity.”

She believes the study of psychology is on the verge of exciting discoveries as science strives to understand personality and behavior.

“An exciting part of teaching is sharing that knowledge and being part of the process that increases awareness on the part of the students. There is always something new in psychology and learning about it is important,” she said. “I very much enjoy that part of what I do.”

MacNamara began at Centralia College in 2008 and has taught psychology continuously. She also teaches upper division courses in leadership and organizational behavior in the college’s bachelor’s degree programs.

“I love teaching. It’s the only career I have ever experienced where I have felt I am doing what I want to do. This is what I should be doing and this is where I want to be doing it,” she said. “This is who I am.”

Statue makes its grand debut

On June 12, the college unveiled “Keep the Doors Open,” a life-sized bronze statue honoring Margaret Corbet and Katharine Kemp, the two women credited with keeping Centralia College open during the Great Depression and World War II.

Margaret Corbet was the college’s first principal. She was responsible for day-to-day operations of the college when it opened in 1925. Katharine Kemp became the dean of students seven years later. During the Depression, the two women went from business to business seeking pledges to pay the college’s operating expenses.

Over their combined 61 years of service, the women wielded tremendous influence on education and the lives of thousands of men and women.

The statue was made by Jim Stafford, a Centralia College alumnus, and is located on the northwest side of the Kirk Library, just along the Aadland Esplanade.
Honorary bachelor’s degrees awarded

For the first time in its history, Centralia College honored three community leaders with honorary bachelor's degrees. The degrees were conferred at the June 13 commencement ceremony and recognized the contributions of Judy Guenther, Bob Guenther, and Gail Shaw.

Judy Guenther served 15 years on the Centralia College Board of Trustees. In 2010, in recognition of her ongoing leadership and contributions to higher education, she was named Trustee of the Year by the Washington Trustee Association of Community and Technical Colleges.

Bob Guenther, Judy’s husband, was also given an honorary bachelor’s degree for his contributions to the college’s Center of Excellence for Clean Energy. He has been integral to the success of the center since its inception in 2005 and has continued to serve on the industry/organized labor advisory board and grant governance boards.

Gail Shaw was given an honorary bachelor's degree for longtime contributions to the college and community. Shaw chaired the Industrial Commission, an economic development group he formed in the 1950s for the purpose of creating an industrial park south of Chehalis. Shaw most recently supported the creation of the bachelor’s degree program.

Shaw passed away in early June; his wife, Carolyn, son and daughters accepted the honorary degree on his behalf.

First BASAM class graduates

After much anticipation and a lot of hard work by students, faculty and staff over the past two years, the first cohort of the Bachelor of Applied Science in Applied Management (BASAM) students have now earned their degrees.

A total of 22 students graduated with their BASAM degree in June 2014. The second cohort of BASAM students is set to graduate in 2015. The third cohort started classes in September and will finish in spring 2016.

“The quality of students is excellent and, because of the success of the first two years, we expect to have students on a wait list before too long,” said Larry McGee, former associate dean of bachelor programs.

The need for the BASAM program was evident in the support from the community at large. Individuals and businesses throughout Lewis County stepped up with financial support and internship opportunities for the students, said BASAM leadership and organizational behavior instructor Dr. Atara MacNamara.

“Our job is to supply high quality graduates to fill the need for a better educated workforce in Lewis County so that employers won’t have to look outside the community to fill management and supervisory positions,” she said.

With the continued success of the bachelor programs, the college launched a Bachelor of Applied Science in Diesel Technology (BASD) program this fall, and is in the early exploratory stages for a bachelor program in special education.

2014 BASAM graduates
A crash landing from 60,000 feet is cause for panic, but after tracking their aircraft 9 miles off course into the woods, the students in the Centralia College Physics and Engineering Club were happy to have found their project at all.

“Considering it fell 60,000 feet into a tree, it’s still in really good shape,” said Blake Wiley, one of the students who worked on the project. “It’s just got one little dent.”

One little dent is a small price to pay for the incredible experience the students gained building, testing, and launching a video-equipped glider into the earth’s atmosphere.

The glider was lifted into near space with a large weather balloon. At peak height, the students activated a mechanism to release the balloon, allowing the glider to coast back to earth, collecting data and video of the entire journey.

The project took months of hard work.

“We budgeted $2,500 for parts and logistics, but it ended up costing us $3,000 due to some electronic failures during testing,” Wiley explained. “It turned out to be the most valuable part of the project. We had a problem and we had to figure it out and fix it the most effective way possible. We ended up learning a lot.”

Funding for the project was split evenly between the William Batie Science Endowment, a Science, Technology, Engineering and Mathematics grant from the Centralia College Foundation, and the club budget.

The students launched the balloon and glider on a sunny, clear July day near Winlock. Overall, they considered it a rousing success.

“We reached our maximum radio range (23 miles), we were able to detach from the balloon, and our autopilot system successfully flew the plane back when wind pushed it out of radio range,” said Wiley. “We couldn’t have been happier with how it went.”

Now, the students are creating a video of their project and analyzing the data they collected. They are also planning next year’s project: an underwater vehicle.
Walton Science Center

In June, the science center became the Walton Science Center in honor of retiring college President Dr. James Walton in recognition of 12 years of service and leadership. Walton oversaw the construction of the science center, remodeling of the Health and Wellness Center, and creation of the Kiser Natural Outdoor Learning Lab and the bachelor's degree programs. Walton accomplished these feats during massive budget cuts from the state and a catastrophic 500-year flood.

Godsey Classroom

In June, room 215 in the Walton Science Center was renamed in honor of Robert Godsey, who taught math classes at the college from 1956 to 1988, and chaired the math department for a number of years. Godsey was also involved in forming the Timberland Regional Library system and a charter member of the Friends of Seminary Hill Natural Area.

Dedication Celebrations

In 2014, Centralia College celebrated four important dedications honoring the contributions of college supporters and leaders.

Littel Commencement Field

At the commencement ceremony June 13, Dr. Walton announced the dedication of Littel Commencement Field, a nod to Charles Littel, the founder of Centralia College. The field between the Clocktower and Kemp Hall is the site of the annual commencement celebration. Littel will also be honored with the final plaque on the Diversity Clocktower in late 2014 or early 2015.

Freund Classroom

In September, room 210 in the Walton Science Center was named in honor of longtime Centralia College foreign languages professor Vic Freund. Freund was a leader in the use of technology in the classroom and helped his students experience different cultures with slides, music, and food.
Two named to All-Washington Academic Team

Kristina Lawley and Raegan Nelson, both second-year Centralia College students, were named to the 2014 Coca-Cola All-Washington Community College Academic Team.

They were selected based on their academic achievement, community involvement, and service to the college. They participated in the All-Washington Team awards ceremony on March 27 at South Puget Sound Community College. Governor Jay Inslee spoke at the event and presented awards to each of the team members.

Student: Kristina Lawley
Age: 34
GPA: 3.51
Major: Nursing

Personal tragedy led Kristina to understand the value of caring, qualified nurses. After losing an infant daughter, she committed herself to becoming a Neonatal Intensive Care Unit (NICU) nurse. She works as a primary care provider at an Olympia care center. A former soldier, she is a wife and mother and still finds time to be active in Phi Theta Kappa. She also served as a writing center tutor.

Student: Raegan Nelson
Age: 18
GPA: 3.97
Major: Cell/Molecular Biology

Raegan, a Running Start student, served as a biology lab assistant in the Science, Technology, Engineering and Math summer camp, the only Running Start student ever selected for this honor. She is the point guard and a captain on her high school basketball team and runs track in the spring. She organized and leads a college chemistry study group, and serves as a mentor. She wants to study nanotechnology and its role in curing cancer.

Both Kristina and Raegan received $250 scholarships from Key Bank for their selection as All-Washington Academic Team members.
On June 13, at the college’s commencement ceremony, Pat Kemp was honoured as the college’s 2014 Distinguished Alumnus Award recipient, the 37th in college history.

Kemp, a 1973 Centralia College graduate, is the Alaska commissioner for Transportation and Public Facilities (DOT&PF). The department is responsible for highways and roads, the state ferry system, airports, measures and commercial vehicle regulation, and design and engineering services.

“It is truly an honor to receive this award,” Kemp said. “I looked through the list of the people who have received this award and the list is impressive. It’s an honor to be included.”

Kemp was born and raised in Ketchikan, Alaska, and graduated from Juneau-Douglas High School in 1971.

“I was invited by George Gablehouse to play basketball at Centralia College. I saw that as an opportunity to play ball,” Kemp said.

The fact that his grandfather was a railroad engineer for the Union Pacific and lived in Centralia cemented the move. He intended to come to Centralia College to earn his associate’s degree and work towards a career as a teacher, which would have followed in his father’s footsteps. He soon realized civil engineering was a much better fit, he said.

He had worked summers in Alaska as a surveyor, construction inspector, and drilling helper, work he enjoyed. He reset his goal, returned to Centralia College, earned his associate degree in engineering, and transferred to the University of Washington.

“I was young and my time at Centralia College helped get me focused,” Kemp said. “I don’t think I could have made it going straight to the University of Washington. Centralia College was important as a transition college. My time there helped me build a great foundation and prepped me well for the university. Among other things, I learned how to study.”

Kemp also met his wife, Becky, while both were attending Centralia College.

His success at Centralia College was passed on to his oldest daughter, who is a Centralia College civil engineering graduate working in Juneau. The Kemps have two other children.

After earning his bachelor’s degree, the Kemps headed north to Alaska, where Kemp began his career with the Alaska Department of Highways in 1971 as a rear chainman on a survey crew. He began full-time employment with the Department of Transportation in 1977.

During his first 30 years in the divisions of construction and preconstruction, he worked in the management and design of heavy construction projects for highways, airports, buildings, harbors and ferry terminals. He became a preconstruction engineer, the highest engineering classification in the state. He retired from the department in 2006, but was invited back by Alaska Governor Sean Parnell in 2011 to be the deputy commissioner of Highways and Public Facilities. He was appointed commissioner in 2012.

Kemp oversees a department with a budget approaching $2 billion, and has about 3,200 employees who plan, design, construct, operate, and maintain a very large multi-modal transportation system.
Julie Barron

Julie Barron, recipient of the Baxter Killian Memorial Trust Scholarship, is a second-year student in the medical assisting program.

Julie has overcome many challenges to get to Centralia College. She dropped out of high school in the tenth grade and didn't earn her GED until 12 years later. During that time, she struggled with homelessness, anxiety, and depression.

“I chose medical assisting as my major because I like to help people,” she said.

Having a scholarship to finish her training gives her confidence to keep moving toward her goals.

“This scholarship shows that you believe in my ability (to become a successful and competent medical assistant),” she said. “Thank you for seeing that potential and for investing in it.”

Reggie Eklund

Reggie Eklund, a recipient of a scholarship from the Chehalis Tribe, is a native of Chehalis and graduate of W.F. West's Honors Program. Reggie plans to pursue a career in the music industry.

“I've always loved music and always wanted to pursue my education in music,” he said. “I want to work in music production.”

Reggie plans to complete a two-year degree at Centralia College and transfer to a music production school.

Having a scholarship ensures he's able to focus on his studies.

“It is my dream to make music for people to enjoy,” he said. “Music has the ability to help people and make them happy. With the help of your scholarship, I can now begin my education that will lead me to this career.”

Dustin Bell

Dustin received the EC Earney Driscoll Endowed Scholarship and is working towards his associate degree at Centralia College. He plans to continue on for a bachelor's degree in business. His ultimate goal is to own a whitewater rafting business.

“My dad has always been into rafting and I've been doing it since I was seven or so,” he said. “It's just something we've always done together and I really enjoy.”

Receiving a scholarship from the foundation allows Dustin to cut down on his work hours and focus on his studies.

“Thank you for the support and generosity,” he said. “Scholarships make a huge difference in a student's future and I am grateful you were willing to make this investment in mine.”
Total Students Receiving Scholarships: 291 (26 BASAM, 11 BASD)

2014-15 Total Amount Awarded: $740,847 for associate-seeking students (includes grants, tuition waivers, and financial aid) and bachelor’s-seeking students

2013-14 Total Amount Awarded: $619,304 to AA students (again it includes grants, tuition waivers, and financial aid) and BAS students

2014-15 Average Amount Awarded: $2,551 for associate degree students, and $2,000 for bachelor’s degree students
ENDOWMENTS

Gordon Aadland
Created by the family of Gordon Aadland to honor his passion for education. Gordon worked at Centralia College as its first public information officer. The esplanade that runs through campus is named in his honor.

William E. Abel (1906–1991)
Established in 1996 by Hazel Abel in memory of her husband who was a member of the original graduating class of Centralia College in 1927.

Alan Allie (1942–1996)
Established in Alan Allie’s name by former Centralia College basketball teammates.

Colleen Allison (1928–1983) Memorial
Served as a bus driver for the Centralia School District for 10 years.

Altrusa Club
Altrusa is an international service organization founded in 1917. The Centralia-Chelalis Club was chartered in 1948.

Margaret Alvord (1907–1986)
Was an accompanist for the college’s music department for 20 years.

American Legion, Post #17
Established National organization founded in 1919; created in memory of long-time member Ted Massey.

American Legion, Post #17
Established National organization founded in 1919 by a group of veterans working for veterans.

Long-time residents of Lewis County and owners of the Barner-Swenson Fuel Company for 30 years.

Rachel Bartlett Memorial (1971–1988)
Centralia High School student who planned to pursue a career as a dental technician.

Centralia College student who planned to pursue a career in law enforcement.

J.O. worked as a railroad engineer. Both were very active in the Masonic Lodge.

Ernest (1911–1999) & Estella Littel Korsgen (1908-2008) & Bernice Kiwanis Club of Centralia/Chehalis
The Kiwanis Club of Centralia/Chehalis was founded in 1922.

Estella Littel Korsgen (1908-2008)
Established in 1950 and affiliated with the Washington Retired Teachers Association.

William A. Barlow
Established in 1966 to formally establish the endowment. The Hanke’s long-time resident of Lewis County, established through her estate.

Margaret Corbet (1886–1971)
Long-time resident of Rochester, established through her estate.

Ethel (1911–1999) & Al (1911–2009) & Marge Kuder Family
Established in 1996 by the family of Al and Marge Kuder whose five daughters attended Centralia College on scholarships.

Dr. Ralph O. Carlson (1923–1996)
Established in 1996 by Janet Carlson in honor of her husband, Ralph, who was a longtime psychology instructor at Centralia College.

Centralia Advanced Education Assoc.
Established in 1984 to provide scholarships for graduates of Centralia High School.

Centennial Scholarship
Centralia College Board of Trustees
Established in 1996 by the Board of Trustees.

Centralia College Booster Club
Athletic Scholarship
Comprised of individuals in the community who support the Centralia College athletic program.

Centralia College Council
Established to help further student success at Centralia College.

Centralia College Distinguished Alumnus
Established in honor of Distinguished Alumnus Award recipients.

Centralia College Exceptional Faculty
Established in 1991, annually recognizes outstanding faculty members.

Centralia College Faculty
Established in 1989 to provide scholarships for students of Centralia College.

Centralia College Foundation
Established to provide tuition for students who demonstrate academic excellence.

Centralia College Library
Established in 2005 by LC Library personnel for the betterment of the LC Library.

Centralia Rotary Club
Established in 1988 by a Centralia Rotarian and expanded in 2010 by the Centralia Rotary Club for scholarships to Centralia High School students.

They owned and operated the N. Churchill Glove Factory.

Vincent Coates (1917–1990)
Math and engineering instructor and registrar at Centralia College from 1948 to 1979.

Margaret Corbet (1906–1976)
First dean of Centralia College, serving from the opening of the college in 1925 until her retirement in 1949.

Adelaide Dagasso (1908–2003)
Long-time resident of Rochester, established through her estate.

Victor Dagasso (1911–1999)
Long-time resident of Rochester, established through his Charitable Remainder Trust.

Ercel Davis (1911–1998)
Long-time resident of Lewis County, established through his estate.

J.O. worked as a railroad engineer. Both were very active in the Masonic Lodge.

Diesel Technology Program
Established in 2002 by the Centralia College Diesel faculty using fund raisers for scholarships.

Edinger/Squires Memorial
Created by the grandson of Lillian/Ray Edinger and Alexander/Anna Squires in memory of their impact on the local community. The Chronicle was owned by the Edinger family until the 1960s and the Squires operated a hardware store on Market Avenue in Chehalis.

Established through a Living Trust in 1995. Ernest worked in steel manufacturing and construction and Edith was a school secretary. Both had a strong commitment to lifelong learning.

Lloyd B. Dysart (1893–1979)
Centralia attorney and business law instructor at Centralia College from 1946 to 1965.

Arthur Ehret (1899–1974)
Chemistry instructor and registrar at Centralia College from 1923 to 1967.

Centralia residents who raised nine children, most of whom attended Centralia College.

First Interstate Bank
The J. Z. Fotheringham Foundation has provided service to Lewis County residents for over 100 years.

Alice Forth
A 1951 graduate of Centralia College and the first Margaret Corbet scholar. Served from 1950 to 1991 as an instructor, counselor, chair of the business education division, and dean of students at the college.

Victor Freund (1945–2005)
Chairman of the social science and humanities division, director of Teaching and Learning Center, director of Distance Learning, and foreign language instructor at Centralia College, 1968-2005.

Rob Fuller Memorial Endowment
The first of three Fuller stores was opened in Chehalis in 1941 by Ed and Bill Fuller, Jr.

Claire E. Fuller (1912–1987)
Employee of the educational system for 12 years and a strong believer in higher education.

George Gablehouse
Physical education instructor and athletic director at Centralia College from 1958 to 1979.

George Godding/EDC
In recognition of George Godding, the first president of the Lewis County Economic Development Council. Scholarship sponsored by the EDC.

John V. Griel (1917–1995)
Chemistry instructor at Centralia College from 1947-1976.

Established by Walter Hanke prior to his death in 1995. The college received the residual of this estate in 1996 to formally establish the endowment. The Hanke’s long-time Lewis County farmers.

Hänke Faculty Achievement
Created from the Walter Hanke estate to provide professional development/recognition or funding for special projects for Centralia College Faculty.

Dr. Nels Hanson
The first president of Centralia College; served from 1966 to 1981.

Marco Heidner Charitable Trust
Established in 1996 by the Board of Trustees.

Dr. Garrett Heyns (1891–1969)
Washington State Director of the Department of Institutions who established the Education Center at Washington Corrections Center in Shelton.

Dave Hilbiber (1922–1997)
Former faculty member of the professional technical program at Centralia College.

Long-time supporter of Centralia College and its many athletic programs.

Hamlet Hilpert (1907–2007)
An active community citizen with a keen interest in Centralia College music programs.

Olive Irelan (1908–1995)
Teacher for 42 years and employed by the Centralia School District from 1944 to 1973. Charter Foundation board member.

Helen R. Jaeger (1929–1991)
An artist; well-known for her pottery design, and a teacher of art and elementary children.

Erma E. (Boone) Kain (1913–1988)
Beautician and resident of Lewis County.

Jack R. Kalmbach
Centralia College Dean of Administration from 1966 until he retired in 1993.

John & Donna Karvia
Former president of Centralia College, having served from 1986 to 2002.

Dr. Henry P. Kirk Scholarship
Established in 1997 to promote arts and humanities in the community.

Mattie Kirk (1936–1996)
Music Scholarship Established by former Centralia College President Dr. Hank Kirk and his wife Mattie prior to her death, in recognition of her love and devotion to music.

Deborah Meade (1947-2012)
Created in memory of CC Distinguished Alumnus Angela Meade’s mother recognizing outstanding Centralia College musicians.

Thorlea Peterson Kirtz
Centralia College class of 1968. Teacher at Maple Lane school.

Rufus Kiser (1907–1995)
Forestry division chair at Centralia College and zoology and physical science instructor from 1941 to 1973.

Kiwanis Club of Centralia/Chehalis
International service organization established in 1915. The Chehalis club formed in 1922.

Created through the Charles Littel Trust, founder of Centralia College.

Established in 1996 by the family of AI and Marge Kuder whose five daughters attended Centralia College on scholarships and have all gone on to establish themselves in careers. Susan Kuder Dunn is a Centralia College Distinguished Alumnus Award recipient.

Lewis County Demolition Derby
Formed in 1980, provides recreation for Southwest Washington residents.

Lewis County School Retirees’ Association
Established in 1950 and affiliated with the Washington Retired Teachers Association.
Minnie Lingreen (1901–1995)
History and social science instructor at Centralia College from 1929 to 1971.

C.L. Littel (1895–1966)
Established Centralia College in 1925 while superintendent of the Centralia School District.

Todd Lovington (1951–1997)
Centralia College math instructor, chair of the college’s Strategic Planning Committee.

John H. Markham (1892–1980)
Centralia timberman who founded Mayfield Youth Camp.

John Markham Athletic (1892–1998)
Created in memory of John Markham to benefit athletes.

Chehalis couple who owned and operated Mac’s Sporting Goods and the McDonald Motel in Chehalis.

Harree L. McGee (1910–1965)
Worked as a precision machinist for the U.S. Navy and later for private companies.

Established in honor of their parents by siblings Cliff Miller, Gene Miller, and Karen (Miller) Paull.

Patricia (Patti) Haase Morton
Centralia College graduate, career U.S. Foreign Service officer and 1979 Distinguished Alumnus Award recipient.

N.C. Machinery
Located in Chehalis and is a supporting company in the Skinner Foundation.

Lena B. Neggerson (1895–1990)
Superintendent of nurses at Tacoma General Hospital until 1933.

Nupen Family
Longtime residents of Lewis County. Vicki was a charter member of the Centralia Rotary Club and Brian is a longtime Centralia College Foundation board member.

Harold J. O’Connor (1910–2005)
Harold is a 1930 graduate of Centralia College. He was a Centralia resident.

Helen O’Connor (1905–1994)
Established in 1988 at the same time that her husband established scholarships and the Harold O’Connor Endowment Fund.

Ellis Oliver (1920–1997) Memorial
Established by family members to honor Ellis and his commitment to education. Promotes and supports business programs.

Robert Harold O’Neill (1890–1981)
Co-founder of Hemphill-O’Neill Lumber Company in 1947; was in the lumber business for 67 years.

Pacific Cataract & Laser Institute
The largest eye surgery center in the Pacific Northwest. Founded January 1985, by Helgi Heidar, M.D., and Robert O. Ford, M.D.

Graduates of Centralia College, retired and lived in Centralia. Francis was employed by the railroad and Alice worked for the telephone company.

Performing Arts Society
Created to benefit programs/equipment/students in the performing arts.

Thor was a teacher and coach at Centralia High School. Helen was a retired pharmacist.

Phi Theta Kappa
Centralia College Honors Society for students pursuing an associate degree. Dedicated to the memory of Timothy Scott Kirk (1957–1992).

Pogorelic Family
Established by longtime Lewis County resident, Vicki Pogorelic, who is also a member of the Centralia College Foundation board.

Arthur Plummer (1911–1978)
Established through his bequest to Centralia College, a life-long resident of Lewis County.

Bob Reimer (1935–1997)
Established as a memorial to the former Centralia College Athletic Director.

Ruth Reynolds (1926–1983)
Nurse at the former Centralia General Hospital and St. Helens Hospital in Chehalis.

Esther Robinson (1917–1984) Endowment Fund for Art Scholarships
Art student and librarian in the Centralia School District.

Jerry Robinson
A long-time Centralia School District teacher and administrator.

Robinson/Wolfson Memorial
Created by the grandson of Isaac/Sarah Robinson and David/Esther Wolfson in memory of their persistence to succeed. Both families were immigrants who came to Centralia in the early 1900s. The Robinson family owned a successful clothing store and the Wolfson family owned a women’s clothing store. Both were located on Tower Avenue in Centralia.

Earl Schwiesow (1932–1996)
A quality contractor who believed in the importance of education.

Security State Bank
Established to provide business scholarships to Lewis County students. Long-term banking institution with great community support.

June M. (Lake) Sippola (1917–1993)
Founder and director of the LPW program at Centralia College – 1954 to 1977.

Delford M. Smith
Centralia College class of 1950; Distinguished Alumnus in 1991. Founder and owner of Evergreen International Aviation, Inc.

Fay Benjamin (1898–1964) & Mary Burcham Smith (1900–1970)
They taught school for over 40 years, many of those years in Chehalis. She was a nurse at the former Chehalis St. Helens Hospital.

Society of American Foresters, SW
Washington Chapter Memorial Scholarship Memorial to Joseph M. Jackson, a Native American, who died in 1988.

David Spomen (1931–2001)
A long-time advocate for education and dedicated to promoting students in vocational callings including diesel technology.

Arthur Freeman Staeger & Kathrene Staeger Kimball (1907–1967)
Freeman graduated from Centralia College in 1932, Katherine in 1928.

Sterling Savings
Providing continuous service to the community since 1921.

Jean Sheridan
Jean is a long-time Lewis County resident and past owner of Pacific Mobile Leasing.

Dave Sherwood (1955–2011)
Created from the proceeds of the Dave Sherwood Memorial Elk Hunt on the TransAlta land. Dave lost his life while pursuing his passion on Mt. St. Helens and was a long-time employee of TransAlta.

Olga Kraus Stewart (1908–2003)
Centralia Junior College’s first music instructor. Continued to teach and write original compositions until her retirement.

Gary & Neena Stoskopf
Gary is the owner of The Housing Mart, Inc. Neena is a former employee of Centralia College.

Eva Knight Swartwood (1887–1964)
Lewis County Auditor from 1918 to 1921; operated the Edison (First Street) Grocery in Centralia.

Gordon Sweany (1913–1986)
First Distinguished Alumnus (1978) and former CEO and chairman of the board at SAFECO.

Carol Talley (1929–2002)

CENTRALIA COLLEGE EXPENDITURE STATEMENT

June 30, 2014

Operations:
Salaries .............................................................. $14,022,188
Benefits .................................................................. 4,544,061
Goods and Services ........................................... 2,449,156
Travel ........................................................................... 236,962
Equipment ................................................................ 585,451
Total Operations ........................................ $21,837,818

Capital Projects ................................................. $1,021,254
Student Employment ........................................... 226,871
Scholarships and Financial Aid ...................... 7,068,622
Total Expenditures ................................... $30,154,565

Employees – During the fiscal year ending June 30, 2014, the college employed 238 full-time and 300 part-time employees. Of the total employees, approximately 76 percent resided in the college’s service district, which includes all of Lewis County and the southern portion of Thurston County.

Local Government – Included in the expenditures listed above are payments to the county and city governments of $416,528 for services, fees, permits, facility rental, and utilities.

Taxes – The college is exempt from state property tax. However, the college is not exempt from sales tax. When taxable items are purchased in Washington State, it must pay tax. For 2013-14, the college paid $21,834 in use tax to the state. The college food service and bookstore generated $1.18 million of taxable sales revenue, which resulted in sales tax collections of $94,185.

Scholarship and Financial Aid
Since its inception, the Centralia College Foundation has been blessed with generous and loyal donors. Our accumulated giving records reflect those donors who have reached the following significant milestones:

**LIFE-TIME DONOR LIST**

Here is a listing of those who have chosen to include the Centralia College Foundation in their planned giving, estate plans, and other future plans. If you’re thinking about estate planning or if you wish to update an existing estate plan, call Julie Johnson at the foundation at 360-736-9391, ext. 516, for details.

**Legacy Society**

“Legacy Society” is a gathering of those who have chosen to include the Centralia College Foundation in their planned giving, estate plans, and other future plans. If you’re thinking about estate planning or if you wish to update an existing estate plan, call Julie Johnson at the foundation at 360-736-9391, ext. 516, for details.

**Legacy Society members include:**

- Estate of Thelma Baxter
- Marjorie Bennett
- Ross & Patricia Galvin

Dr. Nels Hanson and George Gablehouse Remembered

Dr. Nels Hanson

The Centralia College Foundation wishes to recognize the contributions of two longtime college supporters who passed away in 2014.

Dr. Nels Hanson, the first president of Centralia College, passed away in July at the age of 95.

Hanson was named president of Centralia College in 1966. During his 15 years as president, he served as the chairman of the legislative committee that promoted passage of the state’s Community College Act of 1967, which established Washington’s two-year colleges as a separate educational system.

Hanson led Centralia College and the district through many challenges. He is known as a friend of higher education throughout the state.

George Gablehouse

George Gablehouse, a longtime athletic director and coach at Centralia College, died in August.

Gablehouse served as athletic director from 1957 to 1977. He also coached the men’s baseball team, leading the Blazers to six state tournaments and winning the championship in 1965. Gablehouse coached basketball for 16 years and took his teams to five state tournaments.

Centralia College inducted Gablehouse into its Sports Hall of Fame in 1987 and dedicated the entryway to the Michael Smith Gymnasium in his honor in 2012.

He attended the Sports Hall of Fame luncheon every spring, and had a hand in selecting each recipient of the college’s highest athletic honor.

Both men contributed greatly to Centralia College and will be missed.
